The Pres Says.....

Happy New year everyone. I would like to say that I have an open email/door/call policy. Means you can ask me anything at anytime. If anyone has some ideas that want to bring up to the club but dont want to mention at the meeting then shoot me an email. I would like to take the

crash award for this month. My tsunami plane I had a bit of flutter in a dive. I went home to fix the problem. I had to solder up my clevis to the treaded rod on the elevator. I did both ends, but to do the one near the servo I had to pull the servo control horn off. I let it cool off for night. The next morning I put the horn back on the servo and did a check with the servo on. Everything checked out ok. So I installed the wing and went to the field. Well doing some dive testing of the plane on 3rd dive the elevator servo horn came off and went in to the ground at 130 or so. The moral is to always double check everything. If you remove something or doing a repair try to finish the job in one sitting.

Happy flying and see everyone at the meeting.

Well if you haven't heard it from anyone else Happy New Year. So far this year I have 2 flying days under my belt. That is probably my record. Enough about me. I want to remind everyone that we have 2 glow powered trainers available.

See you at the field SOON
Oren
